**Here is a sample of what this program could do for you:** A single mother of two who came in to have her taxes done. Based on her own calculations, she was worried that she would owe the IRS about \$600 so she and her children started skipping meals so she could pay her tax bill when the time came. After working with the AARP Tax Aide Program, she learned she would receive a \$2,000 refund.

**Please give us a call to set up your appointment in February!**
